

VKJP 01011

Product Information - April 2015

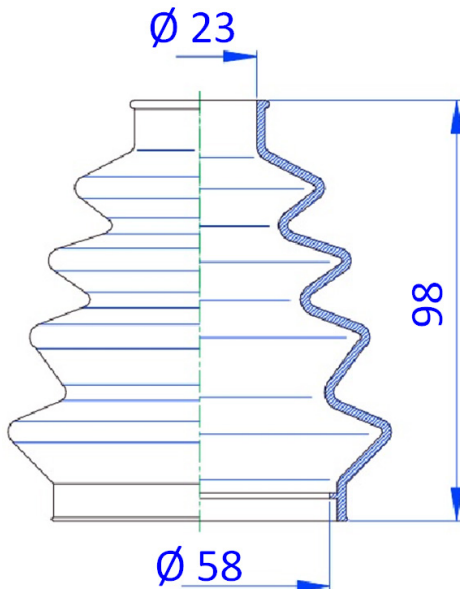

Passenger cars

Technical information: VKJP 01011

VKJP 01011 Semi-universal boot kit is similar to the OE boot shape. There is no need to cut to size for small and big diameter, as per SKF Universal Boot kits.

Note: boot for CV-joints are up to \varnothing 70 mm, but not for Tulipe joint design.

The VKJP 01011 made with stretchy rubber guarantee fast and easy assembly with the SKF air operated expander tool VKN 402, without removing the CV-joint from the shaft.

Expander tool: VKN 402

For a professional repair when tightening the clamps, it is recommended to use the SKF tool VKN 400. Incorrect tightening of the clamps can cause premature failure of the CV-Joint!

Tightening tool: VKN 400

See next pages for the application list.

VKJP 01010 Application list
