Control arm to fit Peugeot 206

as OE

Problem

- High dynamic stress in the control arm
- High surface pressure wears on the tie rod end (ball head diameter 25mm)

Effect

Play in the ball joints and noise at the front axle

Solution

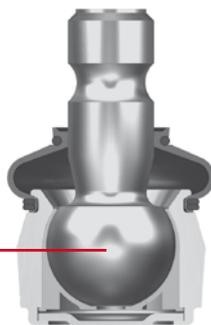

- Use of extremely long-wearing plastic ball joint sockets (in aviation tried and tested material)
- MEYLE high-tech grease
- Increased ball head diameter (27mm)

Advantage

High-quality components with longer service life

as OE

25mm

MEYLE-HD version

27mm
